

Copy of email from John Burke received 13 April 2006

Registration of Interest - Plasma Fractionation Review

I would like to register my interest in the Plasma Fractionation Review, both to receive any further information and updates as they may become available and to offer to be available to be contacted if required.

I have an interest in all of the terms of reference of the review.

I have CIDP and I receive Intragam P every 4 weeks for this condition.

I run a email mailing list for people with CIDP, MMN, GBS and others that receive or have an interest in IVIg.

I am a member of the Victorian IVIg User Group, which is jointly sponsored by the ARCBS and the Victorian DHS.

I would appreciate being advised of any further information or updates as they become available.

I would also particularly request that I be able to attend any consultations with the review committee whenever they are held.

Regards,
JOHN BURKE
