

# CDI subject index, 2005

## A

### ACIR

See: *Childhood immunisation coverage*

### Acute flaccid paralysis

See: *Poliomyelitis*

### Adverse events following immunisation

annual report, 2004; 248–262

supplementary report: among children aged less than 7 years in Australia, 1 January to 30 June 2005; 413–416

### *Aedes (Stegomyia) albopictus*

a dengue threat for southern Australia; 296–298

### *Aedes aegypti*

genetic diversity in Australia and implications for future surveillance and mainland incursion monitoring; 299–304

overseas brief; 228

### AIDS

See: *HIV and AIDS*

### Alphaviruses

See: *Barmah Forest virus infection; Ross River virus infection*

### Annual report

See: *Individual surveillance programs*

### Anthrax

surveillance report; 49

See also: *Communicable diseases surveillance: tables*

### Antibiotic

resistance

gonococcal; 62–64

susceptibility; 139–140

ceftriaxone; 139, 331, 432

cephalosporin; 62–63

penicillin; 63, 139, 330–331, 432

quinolone; 62, 140, 331, 433

spectinomycin; 63, 140, 331, 433

tetracycline resistant *Neisseria*

*gonorrhoeae*; 63, 140, 331, 433

### Arbovirus infection

See also: *Barmah Forest virus infection; Japanese encephalitis virus; kunjin virus infection; malaria; Murray Valley encephalitis virus*

National Arbovirus and Malaria Advisory Committee

annual report, 2004-05; 341–357

### ASPREN

See: *Australian Sentinel Practice Research Network*

### Australian bat lyssavirus

See: *Rabies*

### Australian Childhood Immunisation Register

See: *Childhood immunisation coverage*

### Australian encephalitis

See: *Sentinel Chicken Surveillance Program*

### Australian Gonococcal Surveillance Programme

annual report, 2004; 137–142

evaluation; 143–149

quarterly surveillance report; 330–331, 432–433

surveillance data in *CDI* explanation; 92–93

See also: *Gonococcal infection*

### Australian Meningococcal Surveillance Programme

annual report, 2004; 150–159

quarterly surveillance report; 222, 332, 430–431

surveillance data in *CDI* explanation; 93

See also: *Meningococcal infection*

### Australian National Creutzfeldt-Jakob Disease Registry

See: *Creutzfeldt-Jakob disease*

### Australian National Poliovirus Reference Laboratory

annual report, 2004; 263–268

See also: *Poliomyelitis*

### Australian Paediatric Surveillance Unit

surveillance

2004 update; 407–410

data in *CDI* explanation; 93

quarterly report; 117

Australian Sentinel Practice Research Network  
 evaluation; 231–247  
 surveillance data in *CDI* explanation; 91  
 surveillance report; 58, 113, 219, 328, 430  
*See also: Influenza*

Avian influenza  
*See: Influenza: avian*

## B

Barmah Forest virus infection  
 surveillance report; 45–46, 103, 207  
*See also: Communicable diseases surveillance: tables*

Bloodborne diseases  
 surveillance report; 21–25  
*See also: Communicable diseases surveillance: tables*  
*See also: Hepatitis B; hepatitis C; hepatitis D; HIV and AIDS;*

Botulism  
 surveillance report; 25, 207, 316, 418  
*See also: Communicable diseases surveillance: tables*

Bovine spongiform encephalopathy  
*See: Creutzfeldt-Jakob disease*

Brucellosis  
 surveillance report; 50, 208  
*See also: Communicable diseases surveillance: tables*

## C

*Campylobacter*  
*See: Campylobacteriosis*

Campylobacteriosis  
 surveillance report; 25–26  
*See also: Communicable diseases surveillance: tables*

Childhood immunisation coverage  
 surveillance data in *CDI* explanation; 94  
 surveillance report; 44, 114–115, 220–221, 328–330, 433–435

*Chlamydia*  
*See: Chlamydial infection*

Chlamydial infection; 31–33  
 surveillance report; 318, 418  
*See also: Communicable diseases surveillance: tables*

Cholera  
 overseas brief; 123  
 surveillance report; 207, 317  
*See also: Communicable diseases surveillance: tables*

*Clostridium difficile*  
 overseas brief; 337–338

*Communicable Diseases Intelligence*  
 errata; 98–99, 304, 412  
 instructions for authors; 95–97  
 surveillance systems reported in, 2005; 90–94

Communicable Diseases Network Australia  
*Guidelines for the Control of Pertussis in Australia*; 197  
 National Arbovirus and Malaria Advisory Committee annual report 2004-05; 341–357  
 quarterly report; 88–89, 196–197, 315, 411–412

Communicable diseases surveillance  
 reports; 101–119, 206–225, 316–335, 417–438  
 tables; 104–112, 210–218, 319–328, 421–429  
*See also: Individual diseases*

Creutzfeldt-Jakob disease  
 Australian surveillance update to 31 December 2004; 269–271  
 variant  
 overseas brief; 121, 228, 339, 442

Cryptosporidiosis  
 surveillance report; 26, 101, 316, 418  
*See also: Communicable diseases surveillance: tables*

## D

Dengue  
*Aedes (Stegomyia) albopictus* - a dengue threat for southern Australia?; 296–298  
 genetic diversity of the vector *Aedes aegypti* in Australia and implications for future surveillance and mainland incursion monitoring; 299–304  
 surveillance report; 47–48, 208  
*See also: Communicable diseases surveillance: tables*

Dengue haemorrhagic fever  
 overseas brief; 227

Diphtheria  
 surveillance report; 39  
*See also: Communicable diseases surveillance: tables*

- Donovanosis  
surveillance report; 34
- E**
- Ebola haemorrhagic fever  
overseas brief; 337
- Encephalitis  
Australian  
See: *Sentinel Chicken Surveillance Program*  
See also: *Japanese encephalitis virus*; *kunjin virus infection*; *Murray Valley encephalitis virus*
- Enteroviruses  
See: *Poliomyelitis*
- Escherichia coli*  
See: *Shiga-like toxin producing Escherichia coli/verotoxin producing E. coli*
- F**
- Flavivirus  
See: *Sentinel Chicken Surveillance Program*  
See also: *Dengue*; *Japanese encephalitis virus*; *kunjin virus infection*; *Murray Valley encephalitis virus*
- Foodborne disease  
See: *OzFoodNet*; *salmonellosis*  
See also: *Communicable diseases surveillance: tables*
- G**
- Gastroenteritis  
See: *Gastrointestinal diseases*
- Gastrointestinal diseases  
epidemic viral gastroenteritis in Queensland coincides with the emergence of a new norovirus variant; 370–373  
surveillance report; 25–31, 101–102, 207, 316–318, 418  
See also: *Botulism*; *campylobacteriosis*; *cryptosporidiosis*; *haemolytic uraemic syndrome*; *hepatitis A*; *hepatitis E*; *listeriosis*; *salmonellosis*; *shiga-like toxin producing Escherichia coli/verotoxin producing E. coli*; *typhoid*  
See also: *Communicable diseases surveillance: tables*
- Gonococcal infection  
Australian Gonococcal Surveillance Programme  
annual report, 2004; 137–142  
evaluation; 143–149  
Guidelines for the use and interpretation of nucleic acid detection tests for *Neisseria gonorrhoeae* in Australia: Public Health Laboratory Network position paper; 358–365  
surveillance report; 34–36, 330–331, 432–433  
WHO Western Pacific Region  
annual report, 2003; 62–64  
See also: *Communicable diseases surveillance: tables*
- Gonorrhoea  
See: *Gonococcal infection*
- H**
- Haemolytic uraemic syndrome  
a preventable illness? Purulent pericarditis due to *Streptococcus pneumoniae* complicated by haemolytic uraemic syndrome in an infant; 77–79  
cluster of cases in north Queensland associated with a novel Shiga-like toxin-producing *Escherichia coli*; 193–196  
overseas brief; 227  
surveillance report; 30, 317  
See also: *Communicable diseases surveillance: tables*
- Haemophilus influenzae* type b  
surveillance report; 39–40  
See also: *Communicable diseases surveillance: tables*
- Haemorrhagic fever  
See: *Viral haemorrhagic fever*
- Hepatitis A  
See: *Communicable diseases surveillance: tables*
- Hepatitis B  
estimates of chronic infection in the Northern Territory; 289–290  
surveillance report; 21–23, 26–27  
See also: *Communicable diseases surveillance: tables*
- Hepatitis C  
surveillance report; 23–24  
See also: *Communicable diseases surveillance: tables*

Hepatitis D  
surveillance report; 25  
*See also: Communicable diseases surveillance: tables*

Hepatitis E  
surveillance report; 27, 102, 317, 418  
*See also: Communicable diseases surveillance: tables*

HIV and AIDS  
overseas brief  
multi-drug resistance; 227–228  
surveillance data in *CDI* explanation; 91–92  
surveillance report; 116–117, 222–223, 333, 435–436

Human pituitary hormone  
*See: Creutzfeldt-Jakob disease*

## I

Immunisation  
adverse events following immunisation  
among children aged less than 7 years  
in Australia, 1 January to 30 June 2005:  
Supplementary report; 413–416  
annual report, 2004; 248–262  
childhood immunisation coverage  
*See: Childhood immunisation coverage*

Influenza  
and pneumococcal vaccine coverage among a  
random sample of hospitalised persons aged 65  
years or more, Victoria; 283–288

ASPREN data  
*See: Australian Sentinel Practice Research Network*

avian  
overseas brief; 120–121, 122, 226, 336, 338, 439–441

comparison of a rapid test for influenza with  
laboratory-based diagnosis in a paediatric  
population; 272–276

laboratory-confirmed  
surveillance reports; 40, 207  
*See also: Communicable diseases surveillance: tables*

LabVISE data  
*See: Laboratory Virology and Serology Reporting Scheme*

Influenza, *continued*  
National Influenza Surveillance Scheme  
annual report, 2004; 125–136  
surveillance data in *CDI* explanation; 92  
overseas brief; 228–229, 338, 442  
surveillance in Victoria, 2004; 71–76  
surveillance report; 102, 318, 418  
vaccination  
Australian recommendation for 2005  
season; 61  
*See also: Australian Sentinel Practice Research Network*

Invasive meningococcal infections  
*See: Meningococcal infection*  
*See also: Communicable diseases surveillance: tables*

Invasive pneumococcal disease  
*See: Pneumococcal disease*  
*See also: Communicable diseases surveillance: tables*

## J

Japanese encephalitis virus  
overseas brief; 441  
surveillance report; 48, 103, 207  
*See also: Communicable diseases surveillance: tables*

## K

Kunjin virus infection  
surveillance report; 47  
*See also: Communicable diseases surveillance: tables*

Kuru  
epidemiology in the period 1987 to 1995; 391–399

## L

Laboratory Virology and Serology Reporting Scheme  
annual report, 2003; 56–57  
surveillance data in *CDI* explanation; 93  
tables; 110–112, 216–218, 325–327, 427–429

- LabVISE  
*See: Laboratory Virology and Serology Reporting Scheme*
- Legionellosis  
 surveillance report; 52–54, 209, 419  
*See also: Communicable diseases surveillance: tables*
- Leprosy  
 surveillance report; 54  
*See also: Communicable diseases surveillance: tables*
- Leptospirosis  
 surveillance report; 50–51  
*See also: Communicable diseases surveillance: tables*
- Listeriosis  
 surveillance report; 27  
*See also: Communicable diseases surveillance: tables*
- Lyssavirus  
*See: Rabies*
- M**
- Malaria  
 National Arbovirus and Malaria Advisory Committee  
 annual report, 2004-05; 341–357  
 overseas brief; 229  
 surveillance report; 48–49, 208  
*See also: Communicable diseases surveillance: tables*
- Marburg haemorrhagic fever  
 overseas brief; 226, 337
- Measles  
 outbreak in Adelaide; 80–82  
 surveillance report; 40–41, 102  
*See also: Communicable diseases surveillance: tables*
- Meningococcal infection  
 Australian Meningococcal Surveillance Programme  
 annual report, 2004; 150–159  
 quarterly surveillance report; 103, 222, 318, 332  
 overseas brief; 121, 337  
 probable transmission during an international flight; 312–314
- Meningococcal, *continued*  
 surveillance report; 54–56, 209, 419–420, 430–431  
 vaccine failure in conjunction with an unusual meningococcal cluster in southern Tasmania; 160–164  
*See also: Communicable diseases surveillance: tables*
- Mosquitoes  
*Aedes (Stegomyia) albopictus* - a dengue threat for southern Australia?; 296–298  
 genetic diversity of the dengue vector *Aedes aegypti* in Australia and implications for future surveillance and mainland incursion monitoring; 299–304
- Mumps  
 overseas brief; 122  
 surveillance report; 41, 318, 419  
*See also: Communicable diseases surveillance: tables*
- Murray Valley encephalitis virus  
 surveillance report; 47, 208  
*See also: Communicable diseases surveillance: tables*
- Mycobacterium  
*See: Tuberculosis*
- N**
- National Arbovirus and Malaria Advisory Committee  
*See: Arbovirus infection*
- National Arbovirus and Malaria Advisory Committee  
 annual report 2004–05; 341–352
- National Centre in HIV Epidemiology and Clinical Research  
*See: HIV and AIDS*
- National Enteric Pathogens Surveillance System  
 quarterly surveillance report; 118–119, 224–225, 334–335, 437–438  
 surveillance data in *CDI* explanation; 93–94  
*See also: Salmonellosis*
- National Influenza Surveillance Scheme  
*See: Influenza*
- National Mycobacterial Surveillance Scheme  
*See: Tuberculosis*
- National Notifiable Diseases Surveillance System  
 annual report, 2003; 1–61  
 surveillance data in *CDI* explanation; 90–91  
 tables; 104–109, 210–215, 319–324, 421–426  
*See also: Communicable diseases surveillance*

- National Q Fever Management Program  
*See: Q fever*
- National Serology Reference Laboratory  
 workshop announcement; 100
- Neisseria gonorrhoeae*  
*See: Gonococcal infection*
- Neisseria meningitidis*  
*See: Meningococcal infection*
- Norovirus  
 epidemic viral gastroenteritis in Queensland  
 coincides with the emergence of a new  
 norovirus variant; 370–373
- Norwalk virus  
*See: Norovirus*
- Notifiable diseases  
*See: Communicable diseases surveillance*  
*See also: National Notifiable Diseases  
 Surveillance System*

## O

- Ornithosis  
 surveillance report; 51–52, 103  
*See also: Communicable diseases surveillance:  
 tables*
- Outbreak  
 epidemiological features and control of an  
 outbreak of scarlet fever in a Perth primary  
 school; 386–390  
 investigation of a multi-state outbreak of  
*Salmonella* Hvitittingfoss using a web-based  
 case reporting form; 379–381  
 measles in Adelaide; 80–82  
*Salmonella* Typhimurium phage type 170 in a  
 tertiary paediatric hospital with person-to-person  
 transmission implicated; 374–378  
*Salmonella* Typhimurium phage type U307  
 associated with a restaurant; 83–84
- Overseas briefs; 120–123, 226–229, 336–339,  
 439–442
- OzFoodNet  
 annual report, 2004; 165–192  
 quarterly surveillance report; 85–88, 198–201,  
 308–311, 382–385  
 surveillance data in *CDI* explanation; 94

## P

- Pericarditis  
 due to *Streptococcus pneumoniae* complicated  
 by haemolytic uraemic syndrome in an  
 infant; 77–79
- Pertussis  
 Guidelines for Control of; 197  
 surveillance report; 41–42, 102, 318, 419  
*See also: Communicable diseases surveillance:  
 tables*
- Plague  
*See: Communicable diseases surveillance:  
 tables*
- Plasmodium* spp.  
*See: Malaria*
- Pneumococcal disease  
 and influenza vaccine coverage among a  
 random sample of hospitalised persons aged  
 65 years or more, Victoria; 283–288  
 surveillance report; 42–43  
*See also: Communicable diseases surveillance:  
 tables*
- Poliomyelitis  
 Australian National Poliovirus Reference  
 Laboratory  
 annual report; 263–268  
 overseas brief; 120, 336, 439, 441–442  
 surveillance report; 43  
*See also: Communicable diseases surveillance:  
 tables*
- Public Health Laboratory Network  
 Guidelines for the use and interpretation of  
 nucleic acid detection tests for *Neisseria  
 gonorrhoeae* in Australia; 358–365

## Q

- Q fever  
 surveillance report; 52, 103  
 vaccine uptake in South Australian meat  
 processors prior to the introduction of the National  
 Q Fever Management Program; 400–406  
*See also: Communicable diseases surveillance:  
 tables*
- Quarantinable diseases  
 surveillance report; 31, 207, 317  
*See also: Cholera; plague; rabies; smallpox;  
 tularemia; viral haemorrhagic fever; yellow fever*  
*See also: Communicable diseases surveillance:  
 tables*

## R

### Rabies

- Australian bat lyssavirus
  - defining the risk of human exposure to through potential non-bat animal infection; 202–205
- overseas brief; 121
- surveillance report; 50
- See also: Communicable diseases surveillance: tables*

### Ross River virus infection

- incidence of disease in South Australia, 1992 to 2003; 291–296
- surveillance report; 46–47
- See also: Communicable diseases surveillance: tables*

### Rubella

- congenital
  - surveillance report; 419
- surveillance report; 43–44
- See also: Communicable diseases surveillance: tables*

## S

### Salmonella

- See: Salmonellosis*

### Salmonellosis

- investigation of a multi-state outbreak of *Salmonella* Hvittingfoss using a web-based case reporting form; 379–381
- outbreaks
  - Salmonella* Typhimurium phage type 170 in a tertiary paediatric hospital with person-to-person transmission implicated; 374–378
  - Salmonella* Typhimurium phage type U307 associated with a restaurant; 83–84
- See also: OzFoodNet*
- surveillance report; 28–29
- See also: National Enteric Pathogens Surveillance System*
- See also: Communicable diseases surveillance: tables*

### SARS

- See: Severe acute respiratory syndrome*

### Scarlet fever

- epidemiological features and control of an outbreak in a Perth primary school; 386–390

- Sentinel Chicken Surveillance Program
  - annual report, July 2003 to June 2004; 65–70
  - surveillance data in *CDI* explanation; 92

### Serology

- Kunjin virus
  - See: Kunjin virus infection*
- Murray Valley encephalitis virus
  - See: Murray Valley encephalitis virus*
- See: Laboratory Virology and Serology Reporting Scheme*

### Severe acute respiratory syndrome

- biothreat preparedness - a survey of ACT general practitioners; 277–282
- surveillance report; 31

### Sexually transmissible infections

- surveillance report; 31–39, 318, 418
- See also: Chlamydial infection; gonococcal infection; syphilis*
- See also: Communicable diseases surveillance: tables*

### Shiga-like toxin producing *Escherichia coli*/verotoxin producing *E. coli*

- cluster of cases of haemolytic uraemic syndrome in north Queensland associated with a novel Shiga-like toxin-producing *Escherichia coli*; 193–197
- surveillance of Shiga toxinogenic *Escherichia coli* in Australia; 366–369
- surveillance report; 30, 317, 418

### Shigellosis

- surveillance report; 30, 317, 418
- See also: Communicable diseases surveillance: tables*

### SLTEC

- See: Shiga-like toxin producing Escherichia coli/verotoxin producing E. coli*

### Smallpox

- See: Communicable diseases surveillance: tables*

### *Streptococcus pneumoniae*

- a preventable illness? Purulent pericarditis due to *Streptococcus pneumoniae* complicated by haemolytic uraemic syndrome in an infant; 77–79

### *Streptococcus suis*

- overseas brief; 441

### Syphilis

- congenital
  - surveillance report; 38

Syphilis, *continued*

surveillance report; 37–38

See also: *Communicable diseases surveillance: tables*

**T**

Tetanus

See: *Communicable diseases surveillance: tables*

Tuberculosis

surveillance report; 56

See also: *Communicable diseases surveillance: tables*

Tularemia

See: *Communicable diseases surveillance: tables*

Typhoid; 30–31

overseas brief; 123

surveillance report; 208

See also: *Communicable diseases surveillance: tables*

**V**

Vaccination

See: *Immunisation*

See also: *Childhood immunisation coverage*

Vaccine

influenza and pneumococcal coverage among a random sample of hospitalised persons aged 65 years or more, Victoria; 283–288

meningococcal vaccine failure in conjunction with an unusual meningococcal cluster in southern Tasmania; 160–164

Q fever vaccine uptake in South Australian meat processors prior to the introduction of the National Q Fever Management Program; 400–406

Vaccine preventable diseases

surveillance report; 39–44, 102, 207, 318, 418–419

See also: *Communicable diseases surveillance: tables*

See also: *Diphtheria; Haemophilus influenzae type b; influenza; measles; mumps; pertussis; pneumococcal disease; poliomyelitis; rubella.*

Vectorborne diseases

surveillance report; 45–49, 103, 207–208

See also: *Barmah Forest virus infection; dengue; flavivirus; Japanese encephalitis virus; kunjin virus infection; malaria; Murray Valley encephalitis virus; Ross River virus infection*

See also: *Communicable diseases surveillance: tables*

*Vibrio vulnificus* cellulitis

secondary septicaemia; 305–307

Viral haemorrhagic fever

overseas brief

Ebola haemorrhagic fever; 337

Marburg haemorrhagic fever; 226, 337

See also: *Communicable diseases surveillance: tables*

Virology and Serology Laboratory Reporting Scheme

See: *Laboratory Virology and Serology Reporting Scheme*

VTEC

See: *Shiga-like toxin producing Escherichia coli/verotoxin producing E. coli*

**W**

World Health Organization

gonococcal in the Western Pacific Region

See: *Gonococcal infection*

**Y**

Yellow fever

See: *Communicable diseases surveillance: tables*

**Z**

Zoonoses

surveillance report; 49–52, 103, 208

See also: *Anthrax; Australian bat lyssavirus; brucellosis; leptospirosis; ornithosis; Q fever*

See also: *Communicable diseases surveillance: tables*
